I wanted to say thank you for having the presentation last night. I am so glad that I stayed with my son. I have to say.... both my boys were able to relate to the story, in one way or another. It generated great conversations.

They liked it so much that they both wanted a book. Thank you again.

- Parent who attended class at St. Mary of The Snow, Saugerties, NY

In this current atmosphere of divisiveness in which we sadly find ourselves, Neal's message is a much needed one for middle schoolers, their parents, teachers, and all of us. - Karen Taylor-Good, Grammy-nominated songwriter, author, and speaker

Finding confidence and healthy motivation for any age, but especially the teen years is a big challenge, and sometimes overwhelming. This book is entertaining, helpful, wise, and street-smart with many stories appealing to parents and kids. The advice is real, not clinical, heartfelt and sincere. - Amazon Customer

I learned from the book that no matter what you look like or act like, we are all really the same inside. - Sydney, age 12

When I started reading I thought this was a children's book. I was surprised. Like it says on the cover, it's really a book for all ages. I love the message and plan on using some of the advice in my everyday life. - Danielle Breithaupt, College student

Every child should read this book! - Perry - Father, Grandfather & Great-Grandfather

Do not be fooled by the simplicity of this book. It's message is profound. A college professor could not have written 10 volumes and accomplished what You're Amazing And I'll Prove It! accomplishes - College Professor and International Speaker

Help with bullies. Help your friend. Help your child. Help yourself. Suicide is real, but everyone is amazing. Don't end it all, seek help.
